

Priya Gupta

Email • GitHub • LinkedIn • Srinagar, India

Summary

Full-stack developer experienced in building scalable web applications using Next.js, Node.js, and PostgreSQL. Strong interest in backend systems, API design, and distributed system concepts with experience in open-source collaboration and production-ready development.

Technical Skills

Programming Languages: C++, Python, JavaScript (ES6+), SQL

Frontend Development: React.js, Next.js (App Router), Tailwind CSS

Backend Development: Node.js, Express.js, REST API Design, JWT Authentication

Databases & Storage: MongoDB, PostgreSQL, Supabase, Redis

Tools & Platforms: Git, GitHub, Render, Chrome Extension (Manifest V3)

Concepts: Idempotent APIs, Authentication Authorization, Database Schema Design, Asynchronous Workflows

Projects

AI Trip Planner – *Next.js, Supabase, PostgreSQL, Redis*

Live **GitHub**

- Developed a full-stack AI-powered travel planning platform that generates personalized itineraries in under 5 seconds.
- Integrated Redis caching layer to reduce repeated itinerary generation latency and minimize redundant third-party API calls.
- Implemented secure authentication and protected routes using Supabase with JWT-based session handling.
- Integrated Geoapify and Wikimedia APIs to enable real-time location search and contextual travel insights.
- Designed normalized PostgreSQL schemas reducing query complexity and improving efficiency of trip and user data management.

Bank Ledger System – *Node.js, Express.js, MongoDB, Next.js*

Live **GitHub**

- Architected a full-stack banking ledger system with JWT-based authentication and secure account workflows.
- Designed ledger-based balance derivation ensuring financial consistency, traceability, and auditability.
- Implemented idempotent transaction APIs preventing duplicate transfers under repeated requests.
- Simulated asynchronous transaction settlement with delayed commit handling to mimic real banking systems.
- Structured a modular monorepo architecture separating frontend and backend services and deployed on Render.

Experience

Open Source Contributor

Aug 2025 – Dec 2025

GirlScript Summer of Code (GSSoC)

- Selected from 10,000+ applicants; merged 15+ pull requests across 5 React-based repositories.
- Improved responsive UI components and optimized layouts, increasing mobile usability scores by 25%.
- Collaborated with maintainers to resolve bugs and enhance frontend features, ensuring production-ready code quality.

Registration Team Member

Apr 2024 – Aug 2024

Techvaganza Annual Technical Festival, NIT Srinagar

- Coordinated registration operations for 500+ participants, ensuring smooth event execution.
- Streamlined participant check-in workflows in collaboration with organizing teams, reducing waiting time.

Education

National Institute of Technology (NIT) Srinagar
B.Tech. in Electronics and Communication Engineering

Aug 2023 – Aug 2027
• **CGPA: 8.36 / 10.0**

Achievements

- Strong foundation in Data Structures & Algorithms with hands-on problem solving in C++.
- Contributed to 10+ open-source repositories through frontend enhancements, bug resolution, and UI optimization.
- Represented NIT Srinagar in the INTER-NIT Basketball Tournament 2024.
